

PRODUCT INFORMATION

Estesol®
Hair and Body
Shampoo

Enriched cleanser for showering and bathing the entire body.

ESTESOL® HAIR and BODY SHAMPOO is a soap-free, whole-body cleaning product for gentle showering of all skin types. It is well-suited for combined hair and body washing.

The conditioner (polyquaternium) gives the skin a pleasant, silky feeling and protects it against moisture loss and dryness. Healthy natural hair luster as well as vitality and elasticity are preserved by the conditioner.

ESTESOL® HAIR and BODY SHAMPOO prevents excessive skin swelling that is often associated with the regular use of soap. It also preserves the natural acid mantle of the skin, which protects the skin against bacterial or fungal infections.

Use

- Apply small amount of ESTESOL® HAIR and BODY SHAMPOO onto hands, wash cloth or sponge.
- Add a little water and wash.
- Rinse with plenty of water and dry thoroughly.

Description

Clear yellow liquid with fragrance added.
pH - value: 6-7

First Aid

If ESTESOL® HAIR and BODY SHAMPOO accidentally enters the eyes, flush thoroughly with lukewarm water. Contact a physician if burning sensation persists.

Storage Information

ESTESOL® HAIR and BODY SHAMPOO can be stored in a closed container for at least 30 months at room temperature. The change in viscosity, which is sometimes observed, has no effect on the quality of the product.

Additional Information

Occupational skin irritation, frequent washing or harsh climates can lead to dry, rough and chapped skin [1-5]. This condition can result in irritation/rupture of the outer layer of the skin which impairs its natural protective function. To regenerate damaged tissue after work, the skin should be regularly treated with STOKOLAN® or STOKO® LOTION [1-5]. In doing so, the skin is replenished with moisture, lipids and hydrophilic nutrients. People who already have extremely rough or very dry skin are advised to use a protection cream with a high oil content, such as TAKTOSAN®. Contact Stockhausen or its appointed distributors for advice on selecting the right products.
