1000ml Softbottle with SVP Ultra Dispenser (White)

250ml Tube

Stoko® Emulsion - For Workers Wearing Gloves

- Specially formulated lotion for use under gloves and PPE to help the skin feel more comfortable.
- Soothes skin when used before exposing the skin to fibreglass.
- Formulated to keep skin healthy when using latex or other types of gloves. When used under gloves it helps to prevent excessive perspiration and softening of the skin which can lead to dermatitis.
- Helps keep skin healthy that is exposed to wet work, friction from using tools, PPE and fibreglass. When applied before working with dyes, Stoko® Emulsion will aid the cleanup process.
- Up to 1000 applications per Softbottle.
